LETTER

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Responsive to the Office Action of February 24, 2004.

Applicant elects category 4 which is claim 63 with traverse.

This twenty one (21) way restriction needs to be reconsidered and withdrawn. The requirement that applicant file 20 more patent applications would impose a staggering financial burden on the applicant. The filing, needlessly, of 20 more applications also serves to further overwhelm an already struggling biotech examination operation within the

U.S. Patent and Trademark Office.

The Examiner is urged to reconsider and reformulate the restriction requirement to a more appropriate number of categories.

Applicant believes there are no fees due with this communication. However, if there are fees due, the Commissioner of Patents is hereby authorized to charge Deposit Account No. 13-4892.

Respectfully submitted,

Joseph E. Mueth
